26 July 2015

Dear NGO Representative,

Subject: Follow up to the decision of the Economic and Social Council

I am pleased to inform you that the Economic and Social Council (ECOSOC) at its Coordinating and planning meeting of 25 July 2015 adopted the recommendation of the Committee on Non-Governmental Organizations (NGOs) to grant special consultative status to your organization, Yayasan Rumah Zakat Indonesia. On behalf of all staff of the Non-Governmental Organizations Branch/ECOSOC/ESCA, please accept my heartfelt congratulations.

Consultative status enables an organization to actively engage with ECOSOC and its subsidiary bodies, as well as with the United Nations Secretariat, programmes, funds and agencies in a number of ways. In order to better understand this relationship, we take this opportunity to provide some critical information about the privileges the consultative status with ECOSOC confers on your organization, as well as the obligations that your organization will be required to meet under this resolution. We therefore urge you to take the time to carefully review the information provided below.

A. Privileges and benefits of consultative status

1) ECOSOC Resolution 1996/31

- Arrangements for consultations with NGOs are regulated by ECOSOC resolution 1996/31, adopted by the Council on 25 July 1996. Please review the entire resolution at <http://www.un.org/esa/econsoceco/nongov/199631.pdf> for detailed information. It provides information on ways to participate in the work of the Council, including opportunities to represent and/or to be represented by your organization with Member States and the United Nations system at large, based on the nature and scope of work that your organization undertakes. Consultative relationship with NGOs also enables the Council or one of its bodies to seek expert information or advice from organizations with special competence in a subject matter.

AKSI KEMANUSIAAN DUNIA

PER TAHUN 2020

Kemitraan Global

This figure is a world map illustrating the global distribution of marine mammals. The map highlights various bodies of water, including the Arctic Ocean, North Pacific Ocean, South Pacific Ocean, South Atlantic Ocean, Indian Ocean, and the Mediterranean Sea. Specific regions and features labeled include the Beaufort Sea, Hudson Bay, Davis Strait, Baffin Bay, Labrador Sea, North Sea, Norwegian Sea, Kara Sea, Laptev Sea, East Siberian Sea, Chukchi Sea, Bering Sea, Sea of Okhotsk, Sea of Japan, Philippine Sea, South China Sea, Coral Sea, Tasman Sea, and the Southern Ocean. The map uses a color gradient to represent different marine mammal populations or concentrations, with darker shades indicating higher density.
